

Black Cherry's Community Performance Garden

We need a place to perform and our neighborhood needs accessible family oriented activities. So we bought the abandoned lots next door, put up a temporary fence, invited a bunch of our friends new and old, and got dirty.

Twenty volunteers and a few good contractors donating services, all we need to do is build a new fence, and what a fence it will be!

The Garden Fence

Fences provide security, protecting the inside from the outside. Ours will do so in an open and inviting way. Events inside can be watched from outside. It will be a work of art to be enjoyed by all who pass by.
